

# SENTOSA SUITE

Where one room can become nine, nine rooms can become four or two or any number of useful configurations between. When the room is subdivided, each unit is totally self-contained and effectively sound proofed up to 65 decibels. Syndicate and breakout meetings of almost any combination of number and capacity can be accommodated with this build-to-order arrangement.

When used in conjunction with the Orchard Suite, the flexibility of Sentosa is enriched with additional space.

This suite is perfect for wedding receptions, private and corporate parties, conferences and conventions with multiple breakout rooms. Its pre-function area is perfect for Champagne receptions, delegate registration, tea and coffee breaks for day meetings and events.
