

ORCHARD

This highly-engineered suite is 'fitted for' rather than 'fitted with' equipment. Great emphasis has been placed on putting power where it's needed, taking advantage of the latest technology.

The flexibility of the Orchard Suite's plug-and-play technology and a 21-foot-high, fully-wired, weight-stressed ceiling, creates

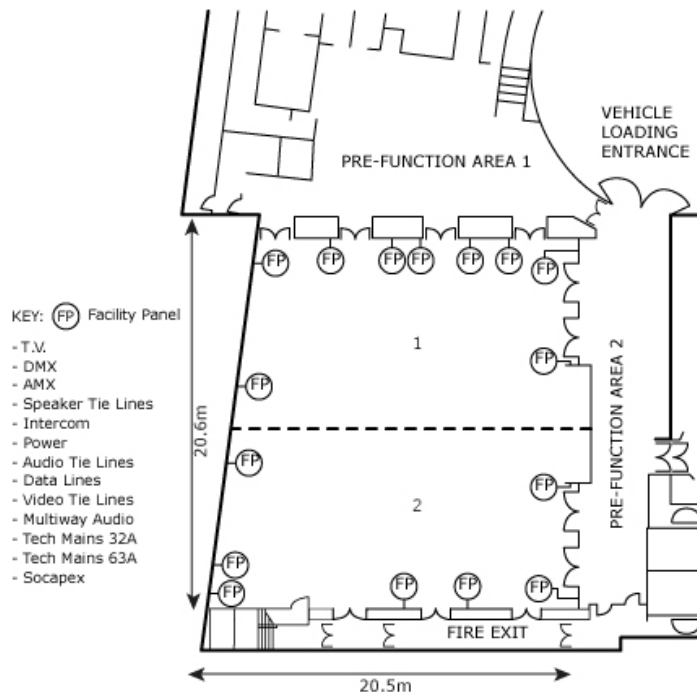

a blank canvass, where even the most creative of event ideas is possible. Even at its 500-seat maximum capacity, the Orchard Suite delivers the immaculate sound and visual clarity envied by stand-alone convention centres.

The Orchard Suite can be divided neatly, with a sliding partition, into two well-equipped rooms; you can use half for a smaller event and get your own private pre-function space next door.
